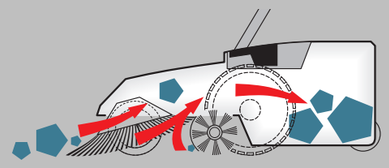
The system of the rotating disc brushes

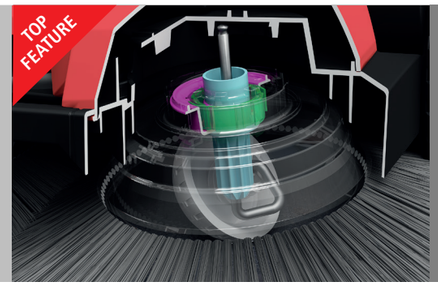
Detailed information to the turbo sweeping system and the intelligent air flow system you can find on our webite.

Four-year wear guarantee
on the brushes* guarantees full performance capability of the power sweeper over a long period.

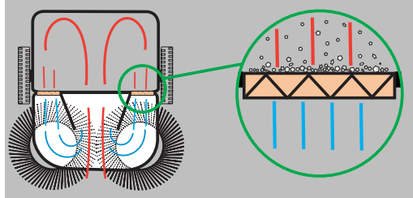
4* YEARS WARRANTY

Turbo sweeping system
Counter-rotating disc brushes push the waste directly into the collecting container. With the additional fine-dirt sweeping roller the machines sweep twice in one step.





iSweep
Form-fitting construction and self lubricating material to increase reliability and durability of the driving clutch.



Low dust build-up due to intelligent air flow
The 400/600 series are equipped with two special filters. The air containing dust is thus cleaned inside the machine and returned to the sweeping cycle.
